Ref.No. : HCM/UP28/2026-27/00125

Date : 12/05/2026

**PRE-SHIPMENT CERTIFICATE FOR FROZEN BONELESS BUFFALO MEAT**

1. This is to certify that the frozen boneless buffalo meat has emanated from buffaloes not used for milch and breeding purpose.
2. The frozen boneless buffalo meat has been obtained from healthy animals slaughtered in licensed premises and was subjected to ante-mortem and post mortem inspection according to prescribed procedures.
3. The origin state from where the frozen boneless buffalo meat was sourced, is compliant in accordance with the recommendations of Article 8.8.24 of the WOA - Terrestrial Animal Health Code.
4. The meat has been prepared under hygienic conditions and is wholesome and fit for human consumption.
5. The meat is free from visible Parasitic infestations.

**ADDITIONAL REMARKS:**

" Certified that the animals are free from Foot & Mouth disease, Rinderpest, Anthrax and any other contagious diseases before slaughter (as stated and confirmed in the approved Health certificate issued by V.O, Department of Animal Husbandry, GOVERNMENT OF UTTAR PRADESH, on deputation to the meat establishment of M/s IFF INDIA FROZEN FOODS PRIVATE LIMITED, , UTTAR PRADESH, INDIA.) as per the meat inspection certificate, certifying that ante-mortem and post-mortem inspection has been carried out and that the meat is free from any contagious/infectious diseases and that the meat is fit for human consumption."

Reputed and Government approved/recognised veterinary institutes in India, based on their experience/investigations have confirmed non usage of chemicals such as Beta-agonists, Nitrofurans or Chloramphenicol, in any manner in frozen boneless buffalo meat raising/treatment in the country. Further, regular testing of meat samples from ISO/IEC 17025 accredited laboratories for these prohibited chemicals, reconfirms the absence of these chemicals and based on the facts known, the certifying authority has no reason to suspect that the frozen boneless buffalo meat products contain any of the these prohibited chemicals (Beta-agonists, Nitrofurans or Chloramphenicol)
